ABOUT MYSELF

As a dedicated fourth-year student pursuing a B.Sc. in Information and Communication Technology at Mahidol University, with an expected graduation in June 2025, I am eager to apply my strong programming skills and passion for software engineering. I am seeking an opportunity to contribute to innovative projects, leveraging my knowledge of software development, agile methodologies, and quality assurance in both backend and full-stack development.

Work EXPERIENCE

Web Developer | Jun. - Jul. 2024

company: Vanness Plus Consulting Co.,Ltd.

Role: Full-stack Developer

Skills | React, Node.js, Json, Mysql, SRS

This project is for a company introduction and service sales website

Past Projects

Senior Project(Siam Trip) | Sep. 2024 - Apr. 2025

Skills | Go, Fiber, GORM, PostgreSQL, Docker, Render

A travel app designed for Chinese tourists in Thailand, offering features like travel plan sharing, location filters, and translation assistance.

Mode Track APIs | Apr. 2025

Skills | Go, Fiber, GORM, PostgreSQL, Docker, Render

Built a cloud-ready RESTful API for emotion tracking

Password Generator | Mar. 2025

Skills | Python, Flask, Tailwindcss, Docker, Render

Developed a password generator supporting CLI and web modes. Implemented customizable password length, complexity, and generation history.

EDUCATION
